

mobyBeauty

ONE online system to manage your Customers Database, Customers Packages and Usage, Staff Commission, Tracks Sales, Inventory and more...

New version out now with more features and analysis reports!

One System for all Requirements

Manages all information such as customers' profiles, packages usage and balance. This provides you with an efficient tool for sales and management, and at the same time enhance your customers' overall experience.

Multiple Channels CRM Solution

Provides a snapshot of your customers' profiles, behaviour and interaction based on the various brand touch points across multiple channels.

Supports Multiple Locations

Centralised database allows easy access to real time information from any location, giving your customers the freedom to enjoy your services with any of your branches.

Appointment & Room Booking Calendar

Day, week and month view calendar for easy appointment booking and overview of schedule.

Automated Appointment Reminders

Reminders are automatically sent via SMS to customer with appointments.

Customer Inventory Module

Tracks customers' transactions and treatments, and manages customers' purchased treatment and points packages.

Integrated POS System

All transactions automatically update the relevant branch's and customer's inventories. Reduces manual updating and tracking.

Stock & Inventory

Tracks stocking items and flags items that have reached minimum re-order quantity. Supports different price lists of same items for different locations.

Purchase Requisition & Purchase Orders

Supports complete process for purchase requisitions through to goods received.

Flexible Commission Tracking

Allows splitting of commissions among staff. Eliminates tedious process of commission calculations as each sales and treatments are tracked.

Voucher & Redemptions

Creates vouchers dynamically and tracks voucher redemptions.

Marketing Tools and Reports

Customer module with comprehensive data fields and filters allows targetted marketing to very specific groups of customers. System captures and tracks source of customers to track effectiveness of marketing campaigns.

Reports on Demand

Provides real time reports on sales, staff performance, inventory, commissions, vouchers etc. to facilitate operation control and aid management analysis.
