

mobyIntranet

A scalable and easy to use system to enhance communication, efficiency and effectiveness of an organisation. The system is modular and highly-customisable to meet your specific business needs.

Features

Additional features are available and can be added.

Content Management System

Intuitive and user-friendly user interface for ease of update and maintenance. Rules and rights can be set for viewing, editing, deleting, approval, and publishing.

Content Versioning

Tracks version changes to allow users to rollback to a specific version if desired. Enhances security to protect against accidental file overwrite.

Built-In Search Engine

Allows searching by keywords through content meta data tagging for documents, images and videos.

Folders and Content Organisation

Contents can be organised into folders with different rights assigned to different users.

Web Based Interface

Ease of access through any standard web browser.

CIFS / SMB Interface

Users can ensure that certain folders on the Intranet are synchronised with their folders on their PC, using the synchronised Windows folder feature.

FTP Interface

An alternate and more efficient protocol for remote access.

Modules

User rights and rules can be set for each module. Email notification feature available.

Leave Application

Submission, approval/rejection and status of leave.

Claims Application

Submission and status.

Resource Management & Booking

Checking of availability and booking and overview.

In/Out Board

Staff with pre-approved leave will have their status shown with duration of leave.

Announcements

Can set publish and expire date, to send to all or selected groups of staff.

Resource Library

Store content such as Company Policies, Staff Directory, Training Materials, Newsletters etc.

e-Payslip

Process and print payslips. One-time PIN will be sent to user's mobile phone as an additional security. mobyAccess using palm vein authentication system can also be deployed as additional security feature.

Other Online Forms

Staff Suggestion, Travel Request, Purchase Request etc.

Other Modules

- Event Calendar
- Forum & Blogs
- Polls & Surveys
- Photo Gallery
